

Black Thunder™

Linear Power Shaker

VGS Configuration Optional

High “G” force, high volume

Introducing the Black Thunder™ Linear Power Shaker. This high “G” force, linear shaker is capable of up to 8.0 “G”. RIG OIL LLC has designed this unit to achieve optimum performance and to answer our customers’ needs for more screening area with a small foot print. Processing rates vary with slurry content, percent solids and

Simplicity in design

Simplicity is the essence of every RIG OIL LLC design. Permanently sealed vibrators make lubrication systems totally unnecessary. Low 80-dB motor vibration eliminates the need for hearing protection. Each of the unit’s three retensioned screen panels can be installed or replaced independently of each other. Replacement takes less than three minutes and requires only a light to medium-weight hammer.

Lowest maintenance cost

Simplicity pays off. RIG OIL LLC equipment has the lowest operational and maintenance costs in the industry. Routine maintenance is extremely minimal. Simple visual checks of screen panels, deck rubbers, inflation of air spring assemblies, and quarterly torque checks of the vibrator motor bolts are all that is required. RIG OIL LLC keeps you on-line for decades of trouble-free performance. It’s that simple!
